# REMARCS

Next Club Meeting: May 24 at 7:30 PM

MAY/JUNE 2016

## Presidents Message

In the last issue of REMARCS I mentioned that this is our club's 40th anniversary which will be celebrated in conjunction with our holiday party in December. In this issue, I would like to reflect on the past six years during which I have been privileged to serve as your club's President. I am doing this because my XYL and I have sold our home in Pennsylvania and we are permanently relocating to our home in Florida. My term will officially terminate at the end of June at which time our Vice President; Jeremy Carlo (N2ZLQ) will step up to fill the role of President through the remainder of 2016.

Being a member of MARC has been one of the most enjoyable things I have done. It has given me an opportunity to make lasting friendships, to learn, and to participate in a wide range of ham radio related activities. Being an officer of the club allowed me an opportunity to try to give back and make a contribution for the rewards I received through my membership. The latest benefit I received was having a number of club members assist in taking down my antennas and tower.

My final thought is that I would encourage each of you to think about what MARC means to you and to think about what you can do to give back to our club so that it continues to grow and thrive.

Thank you again for allowing me to serve as your President these past six years. I hope work you on the air as soon as my station is set up at our Florida QTH.

73/Steve Werner – KD3WK  
MARC President

Steve, KD3WK,

*Although one chapter's closing,  
And you must be moving on,  
We hope you know we'll miss you,  
very much when you are gone!*

*Good luck in Florida!  
Thank you and 73  
from all your friends at MARC!*

## INSIDE THIS ISSUE OF REMARCS:

- 1- Presidents Message
- 2- From The Editors Desk
- 3- Upcoming Events
- 4- 5 MARC Board Meeting Minutes
- 6- March Club Meeting and Amateur Adventures
- 7- Penn Wynne 5K and Donation to Library
- 8- Field Day 2016
- 9- Pagoda Signals and You Might Be A Ham
- 10- Joe Walsh, WB6ACU
- 11 - Frequency, The Movie
- 12- Hamfest Flyer

It's hard to believe that Field Day, Hamfest and The Kimberton Fair are just around the corner. If you use the MARC repeaters, please talk up Field Day and the hamfest on the air. Field Day is the weekend of June 25 and 26 and the hamfest is on Saturday, July 9th. Remember that we will have VE testing at the hamfest at 10 AM and ARRL Award certifications available while you wait. A hamfest flyer with complete details is available on our website and on the last page of this newsletter. If you belong to any other Delaware Valley radio clubs or plan to go to other hamfests before ours, and you would be willing to take some of our hamfest flyers with you to distribute, please drop me a line and I will make sure you get some flyers.

It's not too early to sign up to collect parking donations at The Kimberton Fair. The Kimberton Fire Co. gives MARC free use of the fairgrounds for our hamfest, in exchange for providing volunteers at the fair. This saves our club \$900, which makes a big difference in the bottom line profit of our hamfest.

In years past, we were required to provide volunteers to sell ride tickets and to collect parking donations. For the past 2 years, we have only had to provide volunteers to collect parking donations. This makes the deal for MARC even better but it's still a challenge to get enough volunteers from our club, that are willing to give a few hours of their time.

If you have never volunteered to collect parking donations at the fair, it's easy and fun plus the fire company gives each volunteer free meal tickets, that are also good for the fire company's famous homemade donuts. Basically, you stand along the main entrance, greet visitors and collect donations for parking. Fire company members are always nearby and there are other MARC members on each shift so there's always good company and camaraderie.

This year, The Kimberton Fair runs from Monday, July 25<sup>th</sup> to Saturday, July 30<sup>th</sup> but we only need to provide volunteers on Thursday, Friday and Saturday. Please take a look at the schedule below and send me an e-mail if you can help this year.

73 de Mike, KF3CD  
[kf3cd@arri.net](mailto:kf3cd@arri.net)

#### KIMBERTON FAIR MARC VOLUNTEER SCHEDULE FOR 2016: 4 volunteers per shift needed

\*Thurs. July 28, 5 to 10+ PM  
*\*This shift is longer due to fireworks*  
Friday, July 29: 5 to 9 PM  
Saturday, July 30: 1 to 5 PM  
Saturday, July 30: 5 to 9 PM

### MARC Info

[wb3joe@marc-radio.org](mailto:wb3joe@marc-radio.org)  
<http://www.marc-radio.org>

#### MEMBERSHIP MEETINGS:

4th Tuesdays of the month at 7:30 PM  
(Doors open at 7:00 PM) at The Newtown Public Library,  
201 Bishop Hollow Rd. in Newtown Square.

#### BOARD MEETINGS:

2nd Tuesdays of even months, 7:00 PM  
Paoli Hospital, Willistown Meeting Room, Paoli, PA.  
Members may attend as observers.

#### WB3JOE REPEATERS:

(CTCSS or PL = 131.8 hz)

145.130 - / 147.060 + / 147.360 + / 224.420 - / 224.5 -  
/ 445.675 - / 444.050 -

The 145.13 and 147.06 2-meter repeaters are linked. The  
147.36 MHz, the 224.50 MHz and the 444.050 MHz  
repeaters are linked.

#### WEBMASTER:

Dennis Silage K3DS  
[k3ds@marc-radio.org](mailto:k3ds@marc-radio.org)  
610-353-4829

#### 2-METER NETS:

Club Net, Wednesdays, 8:30 PM

These nets occur on linked 145.13 - / 147.06 + Repeaters

#### NET MANAGER: Open

#### NET CONTROL OPS:

Miguel Ramirez, KC2HMG and Todd Tew, K1TEW

#### DUES:

\$15 Full (licensed Amateurs)  
\$5 Associate (unlicensed persons)  
Family rate \$5/ham - after first member pays full  
dues

#### NEWSLETTER:

The REMARCS editor is Mike, KF3CD. Do you have  
something to contribute to REMARCS? Please let Mike  
know by sending an e-mail to [kf3cd@arri.net](mailto:kf3cd@arri.net).

## **MARC BOARD MEETING: April 12, 2016**

### **AGENDA**

**In attendance: Jim K3RTU, Dennis K3DS, Jeremy N2ZLQ, Chris N3GBJ, Steve KD3WK, Rich KB3VZL, Doug NE3U, Lou WX3I, Michael N3OMR, Jim W3DCL, Bob N3JIZ**

- 1) Approval of minutes of February 9, 2016 Board Meeting - Done**
- 2) Treasurer's Annual Report**
  - a. Current account balance - \$11,103.54**
  - b. Paid membership status – 82 paid members as of the meeting's date**
- 3) Upcoming General Meeting Programs**
  - a. Schedule for 2016**
    - i. April 26 – Auction – Meeting at Edgemont Fire Company**
    - ii. May 24 – Hark Humphrey (K3XY) – APRS**
    - iii. June – No Meeting – Field Day June 25-26**
    - iv. July 26 Lynette Evans (W3GZZ) – Storm Chasing - CONFIRMED**
    - v. August – Pete Kovak on roving**
    - vi. September Gorge Riveria – Oscilloscopes**
    - vii. October – Rich (KB3VZL) Home Brew**
    - viii. November – Elections – Need presentation (possibility for WT Jones, TBD)**
    - ix. December – Holiday Party/40th Anniversary**
- 4) Old Business**
  - a. Nick Fund – no additional monies needed now**
  - b. Holiday Party/40th Anniversary )**
    - i. Suggested people sign up ahead of time**
    - ii. \$10/member, \$20/guest**
    - iii. Dennis will handle reservations**
    - iv. Suggested we get commemorative gift such as a mug, Dennis will look into this**
    - v. Possibility of distributing CD of REMARCS at the party**
    - c. Field Day Planning – report from Co-Captains (Jim Foster, Jeff DeKonty) – draft article for May or March newsletter – who will do this?**
      - i. Approved letting organizers obtain some coax and connectors for show and tell at Field Day**
      - ii. Status of generator needs to be determined**
      - iii. Bob Palin agreed to be safety officer.**
      - iv. Club will buy first aid kit.**
      - v. Radio merit badge program**
  - 1. Doug happy to help but we need someone to take charge who has BSA qualifications. Jeremy may be able to become certified to take charge.**

- 2. Steve will send email to membership to determine if we have other BSA certified members who can help.
- d. Hamfest – July 9 – any changes to advertising, ticket prices? – not addressed
- 5) New Business
  - a. Training and Documentation
    - i. Loaner equipment – not used often, no perceived need for more
    - ii. Safety officer for club – see under old business
    - iii. Safety training for Field Day, Hamfest, public service events – Bob Palin agreed to be safety officer
  - b. Steve (KD3WK) announced that he will be permanently relocating to Florida and will resign from MARC on June 6. Under the MARC bylaws, Vice President Jeremy (N2ZLQ) will assume the Presidency until the next club election.
- 6) 2016 Board Meeting Schedule
  - a. Need to confirm Paoli Hospital availability - Jim Biddle?
  - b. June 14
  - c. August 8
  - d. October 11
  - e. December – prior to Holiday Party

#### 40th Anniversary Party – SIW Notes

- ☐ Suggest forming a 'committee' to address this – head?
- o Dennis will handle Uno reservation
- ☐ Who should be invited
- o Current MARC members
- ☐ Significant others?
- o Past MARC member
- ☐ Kay and Carter Craigie
- ☐ Others?
- ☐ should this be subsidized by MARC - \$10/member, \$20/guest
- ☐ Venue – Chicago Uno?
- ☐ Review historical club information
- o CD with old issues of REMARCS – see under old business – Steve may be able to make the copies of CD
- o Box of pictures and other memorabilia (SIW house)

#### Additional Business

Rich Russo would like to send a survey to all members to determine the variety of skills available within the club. No action taken on this yet.

Steve has sold his house and will be moving to FL in June – July. Jeremy will become interim President.

Lou will look into doing a Skywarn presentation to the club at some yet to be determined date.

Brief discussion about the merits of merging two clubs to increase membership, enhance interest, and pool resources.

From Dennis: the 220 repeater at Bryn Mawr Hospital will be terminated because metal construction near the antenna will detune it. A 220 repeater for Darby will be purchased. Two fusion repeaters in Paoli and a 440 in Darby.

## March Club Meeting

At our March club meeting, Ron Block, N2RB, gave a lively and very educational presentation on lightning and grounding. If you missed the meeting or want more info, you can download a copy of Ron's articles: Lightning Protection for the Amateur Station, as published in the June, July and August 2002 issues of QST, at the following link:

<http://wrblock.com/StationProtection/StationProtection.html>

## Amateur Adventures by Kevin Perrot, K3NTD

### Field Day 1987 Revisited

I have fond memories of a MARC FD, when I would take my tractor on a trailer to the Bell Telephone training grounds in Audubon on the Thursday before and mow the area. On Saturday with my station set up, I would utilize my stake body trailer as an anchor base for a 38' wood mast composed of two 20 ft. wood 2 x 4's, extended and bolted together in a swivel configuration. This was then pipe-clamped to the stake body to support a home made 20 meter dipole, resonant in the CW portion of the band. The feed line would lead to our Collins KWM-380 with a 140 Hz filter for CW work, set up in our roomy tent.

The high point of FD for me occurred when I heard RM8MA in Frunze, Kyrgyzstan, in the cw portion of 20 meters, at 00:35Z. What to do? Will he count for FD? Don't concern yourself with that now, work him first with your home call and then figure it out, then then work him with the club FD call! He was working a pile-up in fine fashion and I managed to do both.

Several hours later, Carter KD3AO, now N3AO, returned from dinner at home and I told him of my QSO with Kyrgyzstan. He was astonished as I was; I said lets see if he is still on frequency. He was and Carter was able to work him too! Months later we both received our QSL cards from Fred Justus, RM8MA.

We were both amazed with the contacts, so far away, with such a flimsy antenna mast, a dipole and emergency generators, under field day parameters; which made for a memorable Amateur Adventure.

73 Kevin K3NTD

Kevin Perrot, K3NTD, cutting the grass on his tractor in preparation for Field Day, in the mid 1980's.

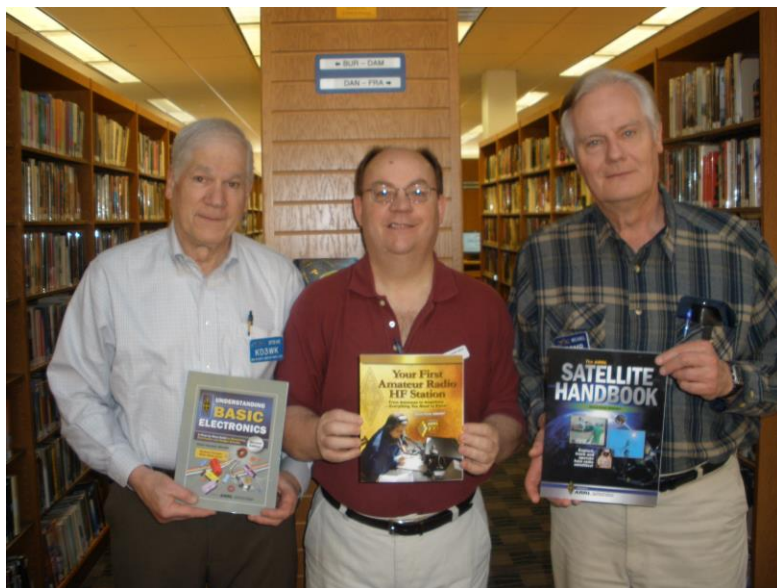

## Penn Wynne 5K Run

Thank you to the MARC members above that provided communication services at The Penn Wynne 5K Run on Saturday, April 2nd!

From left to right: Rich Russo KB3VZL, David Hollingsworth K3DMH, Bob Palin N3JIZ, Floyd Schoenberg KA3OXA, Michael Lebrun N3OMR, Doug Wilkens NE3U, Jim Smith K3RTU and Brian Kelly, AA3BK.

## MARC Donates Books to Newtown Library

Stever Werner, KD3WK (L) and Michael Lebrun, N3ORH (R), present books donated by MARC, to Mike Scott (middle), of The Newtown Public Library.

## **MARC Field Day 2016**

**By Jeff DeKonty, AB3WM**

I remember a Saturday Night Live skit from a long, long time ago. Dan Akroyd and Gilda Radner were arguing over a spray can of some sort. “It’s a floor wax!” “It’s a desert topping!” Then Chevy Chase comes on saying “New Shimmer is a floor wax AND a desert topping!” What does a 70’s comedy skit have to do with amateur radio? Well, is it a hobby!? Is it a service!? It’s BOTH!

Few times demonstrate the intersection of the hobby and service dimensions of amateur radio than Field Day. Held nationwide the fourth weekend of every June, Field Day combines the service aspect of preparedness for emergency situations with the camaraderie, the eating, the experimentation, the snacks, the public relations, the pizza, the chance to polish operating skills, the donuts, the teaching opportunities and, yes, the food.

Field Day is a tremendous opportunity for those new to amateur radio to gain knowledge and experience. For the veteran operators, it’s a chance to Elmer and to stretch your legs outside the shack and break the routine a bit. For all of us it’s an opportunity to improve our portable setup techniques – skills that can be critical should the need ever arise in an emergency situation.

MARC’s Field Day is also a great public relations activity with educational opportunities for Boy Scouts to earn their amateur radio merit badge, a GOTA (Get On The Air) station where anyone can give radio a try. It’s a chance to show friends and family what amateur radio is all about. It’s also a chance for socializing and (as mentioned before) I hear there may be food!

This year, under the leadership of Captain Emeritus Jim Smith (K3RTU) and co-captains Jim Foster (W3JNF) and Jeff DeKonty (AB3WM), we will be trying a few new things. There will be a solar-powered operation and three drawings for free subscriptions to Ham Test Online (exam preparation courses for Technician, General and Amateur Extra). In addition to that, we will have tools and materials available for hands-on learning in soldering and crimping different kinds of connectors. You might be an old hand at all of that; no problem! Take a turn at showing a new ham the ropes. Need that perfect 22 3/8” jumper? If you don’t mind the kind of cable and connectors we offer, you’re welcome to help yourself (while supplies last).

Another addition this year will be the presence of a “MARC Ambassador.” Feedback from last year’s event was that it was possible for visitors to come and go without notice while all of us busied ourselves with Field Day fun. So if you bring a friend, look for someone in an orange safety vest; that person will be on the lookout to make sure newcomers feel welcome and get the royal treatment.

This year Field Day is June 25th and 26th. MARC activities will, as in years past, be in Eagleville at the Lower Providence Fire Company, located at Ridge Pike and Mount Kirk Avenue. Come out and enjoy the fun! We’ll be communicating exact start times, but, since it’s a 24-hour operation, you’re welcome to stop by any time! We encourage all MARC members, your family and friends to come be a part of Field Day 2016. It’s going to be GREAT!

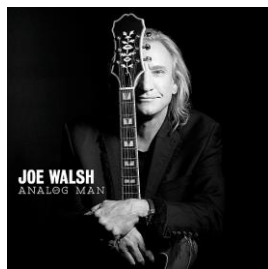

## Pagoda Signals

Before the days of regular radio broadcasting, lights flashed as signals from the Pagoda on top of Mt. Penn, to the people of Reading, Pa below. The morse code signals were flashed to direct firemen. On other occasions, signals were sent to further fundraising campaigns and to give the results of sporting events, such as prize fights and The World Series. The morse code was based on light signals instead of sound so a few adjustments were made. A white light represented a dash and a red light was a dot. A steady white light meant that the station was not occupied. A white and red light meant that the station was open and prepared to operate. If both lights flickered, a message was about to be sent. If there was a white steady light and a flickering red light, an error message was made and the message was being corrected. A steady red light and a flickering white light meant that urgent action was needed for the subject being broadcast by the lights.

You might be addicted to ham radio if:

- You buy electrical tape in ten packs.
- You'd rather help a buddy put up a new tower than mow the lawn.
- You've grabbed the wrong end of a soldering iron.
- You start giving out RST reports when you are on the telephone.
- The propagation forecast means more to you than the local weather forecast.
- When your XYL notices a new rig in the shack, you tell her that it has been there for years.
- Your watch is set only to UTC.
- You walk through the plumbing section at the hardware store and see antenna parts.
- At night, when you pray, it starts off something like: CQ CQ CQ GOD DE (your callsign).
- Ham radio magazines comprise more than 50% of your bathroom library.
- You have tapped out HI in Morse on your car horn to another ham.
- Your teenager refuses to ride in your car because it looks like a porcupine.
- You know the Latitude and Longitude of your home QTH.
- You go into the local Radio Shack store and the clerk asks you where something is.
- You get up at 03:00 AM for a DX schedule on 75 meters.
- Your reaction to a solar flare bringing down the entire electric grid for the North East is that the bands will be dead for a week or more.
- When you see a house with a metal roof your only thought is what a great ground plane that would be.
- You notice more antennas than road signs while driving your car.
- You walk carefully in your back yard to avoid being close-lined.
- Fermentation never enters your mind when "homebrew" is mentioned
- You look forward to the Super Bowl because there won't be a lot of QRM on the bands.

## Joe Walsh, WB6ACU: He's An Analog Man

Grammy Award-winning rock-and-roll legend Joe Walsh, WB6ACU, released his latest CD, *Analog Man*, in 2012. A singer-songwriter and Rock and Roll Hall of Fame inductee, Joe has been performing for more than four decades, not only as a solo artist, but as part of admired bands such as The Eagles, The James Gang and Barnstorm. He joined the Eagles in 1976 and is credited for bringing a harder rock sound to the band with the highly acclaimed *Hotel California*, *The Long Run* and *Eagles Live* albums.

Joe is an ARRL member and is no stranger to the analog way of life. He enjoys operating on 75 meters AM and has been around the amateur bands since he was first licensed as a kid in 1960. A self-proclaimed analog man, Joe refers playfully to the new digital age in the album's title track. He notes that he has adapted to the digital age, but says "I am what I am -- I'm an analog man."

You can see Joe perform the title track to this album at the link below. I think you will enjoy his wit, charm and licks on this great song.

Analog Man Live at The Troubadour in West Hollywood, CA.: [https://youtu.be/il1Byvn\\_vMA](https://youtu.be/il1Byvn_vMA)

You can hear Joe speak about how he became a ham and what he loves about ham radio, in this Ham Nation interview from 2014: <https://twit.tv/shows/ham-nation/episodes/144>

### "Analog Man"

Welcome to cyberspace, I'm lost in the fog  
everything's digital I'm still analog  
when something goes wrong  
I don't have a clue  
some 10-year-old smart as\* has to show me what to do  
sign on with high speed you don't have to wait  
sit there for days and vegetate  
I access my email, read all my spam, I'm an analog man.

the whole world's living in a digital dream  
it's not really there  
it's all on the screen  
makes me forget who I am  
I'm an analog man

yeah I'm an analog man in a digital world  
I'm gonna get me an analog girl  
who loves me for what I am  
I'm an analog man

what's wrong with vinyl, I think it sounds great  
LPs, 45s, 78s but that's just the way I am  
I'm an analog man

turn on the tube, watch until dawn  
one hundred channels, nothing is on  
endless commercials, endless commercials, endless  
commercials

the whole world's glued to the cable TV  
it looks so real on the big LCD  
murder and violence are rated PG, too bad for the children  
they are what they see

the whole world's living in a digital dream  
it's not really there  
it's all on the screen  
makes me forget who I am  
I'm an analog man

yeah I'm an analog man in a digital world  
I'm gonna get me an analog girl  
who loves me for what I am  
I'm an analog man

yeah I'm an analog man in a digital world

## Frequency, The Movie

Actor Jim Caviezel in the 2000 movie Frequency

Many of you have probably seen the movie Frequency, which featured ham radio in the plot. The TV Network The CW is developing a new series for TV, based on this excellent film from 2000. Like the movie, the series will follow a father who makes contact with his adult son in the future via a ham radio. The original film starred Dennis Quaid and Jim Caviezel. If the network does go forward with the project, the modern-day version of "Frequency," the TV series, would feature a young female police detective named Raimy, who uses ham radio to communicate through time with her deceased father. If they get it right, this could be an excellent family drama with a sci-fi twist.

When the original "Frequency" movie debuted, the ham radio theme and the chance to see vintage ham gear and real, glowing vacuum tubes on the big screen generated considerable interest within the community of "boatanchor" enthusiasts. ARRL worked with the film's producers.

You can see a trailer for the new Frequency TV series here:

<http://www.blastr.com/2015-8-12/cw-developing-friday-13th-riverdale-and-frequency-new-tv-series>

The Mid Atlantic Amateur Radio Club Presents the

# VALLEY FORGE HAMFEST
